Playing Courts

Many of the sport courts in Victoria need some maintenance work, such as lighting, refreshed lines and resurfacing. Priorities for short term improvements have been determined through a condition assessment, but we also want to hear from users on how the City should best spend the \$50,000 budget for maintenance for 2017. We will also want input into priorities for the next few years. A workshop will be held on Wednesday May 3 at City Hall from 6:30 p.m. – 8:30 p.m. Please RSVP to parkspermits@victoria.ca.

North Park Village Street Revitalization

The improvement project for Cook Street (North Park Village) has begun and be complete by July 1. The FCA and NPNA have been directly involved in developing the design for crosswalks, banners and gateway signage, as well as considering other enhancements to bring (even more!) vibrancy to the village centre.

Short Term Vacation Rentals (STVR)

At their [March 9 meeting](#), Council directed staff to provide advice on tools available to limit the number of STVRs where they are currently allowed and that this include options for:

- a) A City-initiated rezoning to remove transient accommodation as a permitted use from residential strata property, with an "opt-out" process where stratas can apply to retain transient accommodation as a permitted use, where a majority of strata lot owners in a residential strata indicate their support for that use.
- b) A business license scheme for Short-Term Vacation Rentals that is consistent with the Strata Property Act and does not include granting licences for stratas that do not allow Short-Term Vacation Rentals in their bylaws.
- c) Maintaining transient accommodation as a permitted use, with the option of an "opt-in" mechanism for a City initiated rezoning to prohibit transient accommodation as a permitted use, where a majority of owners of units in a residential multi-unit building (condominium) downtown indicate their preference for this rezoning.

Visual Victoria

We are now in the last stages of the planning process and draft plans have been posted on our [website](#). An Open House was held on March 30 at City Hall for comments from the public on the two plans. Cannabis Dispensaries (*media release*)

The exemption period for compliance with the City's cannabis regulations has expired. The City will now be launching legal proceedings for any cannabis retailer who has not applied for a business license or a rezoning. From the outset, the City's objective has been to work with the industry to gain compliance with the regulations, which took effect in November 2016.

The regulations provided a grace period of 60 days to allow businesses to meet the requirements of the regulations, which include applying for a business license and rezoning the property. The City provided education and support during that period to help businesses become compliant. As of March 17, 33 cannabis retailers had applied for a business license 23 had applied for rezoning. Sixteen cannabis retailers had yet to apply for rezoning and one for a business license. The legal proceedings can be halted by non-compliant cannabis retailers by applying for the required business license and rezoning.
